Venice Biennial 2011 AR Intervention

Cyberartist Group Manifest.AR

In answer to Bice Curiger's 5 Questions, the Manifest.AR International Cyberartists Group hereby announces that their Uninvited Participation will not be bound by Nation-State Borders, by Physical Boundaries or by Conventional Art World Structures.

We have invaded the Sacred Curatorial Grove of the Giardini and inundated the Hallowed Public Space of Piazza San Marco! Our Artworks reflect on The 5 Questions, The Biennial, and Venice Itself. We bring Water Refugees, Embalmed Patriarchs, Aliens, Viral Toads, Historic Icons, Islands of Hope, Battling Pavilions and Censored Artists to the Venice Biennial!

The Invisible Pavilion

Les Liens Invisibles and Simona Lodi

The Invisible Pavilion is a hallucinatory experience of rewriting the world, an encouragement to increase the whirl and flow of information on invisible r/Reality.

Nine artists have been invited to contribute to the pavilion project, performing the space of the Biennale with their own stream of artworks during the whole period of the exhibition.

Just look at your smartphone: the Art, my friend, is flowing in the wind.
